DATE	11.09.2024

1. OCCUPATIONAL HEALTH, SAFETY, ENVIRONMENT AND SUSTAINABILITY POLICY

Sempro ensures all activities required by law with regard to occupational safety for its employees and stakeholders.

It carries out its activities in a safe and environmentally friendly environment for employees, business partners and customers.

Sempro is aware of the sustainability requirements for our country and the world. The company aims to create a sustainable future by living in an environmentally responsible way and leaving a healthy, clean, and livable world for generations to come. In this direction, Sempro donates seedlings on behalf of individuals as part of its activities.

Sempro strives to take part in a project of social responsibility on an annual basis.

It adopts the principle that occupational health and safety, environment and sustainability and improvement activities are the common responsibility of all employees.
